Volunteers:  20
(excludes part-time staff)

A Great Opportunity
We are placing significant effort on helping the individuals we serve to become even more successful in the community by helping them to gain skills and experiences that lead to gainful employment.  One of the most significant ways we can impact our clients and ensure that they are thriving in the community is to prepare them with the appropriate skills and foundation they need to be successful.  While we work with all clients on their goals for strengthening their daily living skills, many also want to learn skills that ultimately lead to employment.  However, many of our clients have barriers to employment because they are lacking skills, may have a history in the legal system, lack confidence, and do not have the support that meets their special needs while learning to gain skills that prepare them for work.  Continuum provides a unique array of training and employment programs for adults who have a history of mental illness, addiction or homelessness.  They are unique in that they are specifically designed for individuals with mental illness challenges, and the programs ensure closely supervised apprenticeships for 12-18 months, depending on need.  We have seen compelling results for our clients in our Apprenticeship and and Peer Services Employment programs, and so many individuals who thought they would never be able to work are now working and have a sense of worth and value.  They have gone from hopelessness to liveliness and thriving in the community.

A Great Opportunity Ending Date  Sept 31 2022
